WRITING (25 minutes)

The screenshot shows the Experimentarium website with a navigation bar at the top containing 'ABOUT US', 'SKILLS', 'PRESS', 'DONATE', 'WEBSITE', and a shopping cart icon. A banner at the top right says 'Open today 10:00 - 17:00 Plan your visit'. Below the banner are six exhibit cards, each with a title, an image, and a short description:

- ENERGY ZONE**: In the Energy Zone, you can get a clear sense of how much energy is required to watch TV – and you can try lifting your own carbon footprint.
- HOUSE OF INVENTIONS**: What makes a good invention? In the House of Inventions, you set out on a journey of discovery into the mind of the inventor.
- CIRCUS PHYSICUS**: Immerse yourself in fun and amazing physics phenomena and find out about the science behind them.
- THE TUNNEL OF SENSES**: Take a trip through the Tunnel of Senses: a voyage of discovery into your own senses where you feel, listen, see and smell your way to new knowledge about yourself.
- BE SEEN BE SAFE**: Try out the truck simulator and see for yourself how difficult it is to see what is happening on the road when it's dark.
- THE LABYRINTH OF LIGHT**: In the Labyrinth of Light you can play tunes on the laser harp, examine the colourless room and try moving faster than your own shadow.

A new scientific fun house, *The Experimentarium*, has been built in your town. The main aim of this centre is to show kids that science is not boring – it's fun. It is a museum where kids can take part in different scientific experiments and make virtual tours to any place imaginable. As a reporter for your school magazine you have to prepare an article on it, providing its readers with **the following details**:

- **introduction**
- **the design of the scientific fun centre**
- **interactive activities kids can take part in**
- **other services which *The Experimentarium* centre offers**
- **conclusion**

Write your report in 100-120 words.

..... Welcome to Experimentarium! Here you  
can see that science is not boring - it's fun!  
..... Scientific fun centre has a modern  
design. You can see glass doors and unusual  
furniture.....

In Experimentarium you can visit Energy zone - there you can get a clear sense of how much energy is required to watch TV.

In the Labyrinth of Light you can examine the colourless room.

What about the truck simulator? You can see for yourself how difficult it is to see on road when it's dark.

By the way Experimentarium has a cafe with so tasty food.

Come to Experimentarium and ~~see~~ try other activities! We are waiting for you!
