WRITING (25 minutes)

The screenshot shows the Experimentarium website with a navigation bar at the top containing 'ABOUT US', 'SALES', 'PRESS', 'CONTACT', and 'HELP'. Below the navigation bar, there are six featured exhibits, each with a title, an image, and a short description:

- ENERGY ZONE**: In the Energy Zone, you can get a clear sense of how much energy is required to watch TV – and you can try lifting your own carbon footprint.
- HOUSE OF INVENTIONS**: What makes a good invention? In the House of Inventions, you set out on a journey of discovery into the mind of the inventor.
- CIRCUS PHYSICS**: Immerse yourself in fun and amazing physics phenomena, and find out about the science behind them.
- THE TUNNEL OF SENSES**: Take a trip through the Tunnel of Senses, a voyage of discovery into your own senses where you feel, listen, see and smell your way to new knowledge about yourself.
- BE SEEN BE SAFE**: Try out the truck simulator and see for yourself how difficult it is to see what is happening on the road when it's dark.
- THE LABYRINTH OF LIGHT**: In the Labyrinth of Light you can play tunes on the laser harp, examine the colourless room and try moving faster than your own shadow.

A new scientific fun house, *The Experimentarium*, has been built in your town. The main aim of this centre is to show kids that science is not boring – it's fun. It is a museum where kids can take part in different scientific experiments and make virtual tours to any place imaginable. As a reporter for your school magazine you have to prepare an article on it, providing its readers with **the following details**:

- **introduction**
- **the design of the scientific fun centre**
- **interactive activities kids can take part in**
- **other services which *The Experimentarium* centre offers**
- **conclusion**

Write your report in 100-120 words.

I We have new fun house *The Experimentarium* in our town.
I will visit it and tell you about this wonderful building.....
..... The first thing that I admire is design. Design is very
amazing. A lot of colours includes there. The red roof very beautiful
and I think that it is the most beautiful thing in our town.....

7-8 классы

The second my favourite thing is a difference of activities. People can take part in a lot of cool activities such as the tunnel of ~~senses~~ senses or truck simulator. The kids will have a very beautiful things ~~as~~ such as The labyrinth of light and room of inventions. Besides the will have a possibility to take part in ~~the~~ circus physics and energy zone.

In conclusion I want to say that ~~for~~ Experimentarium is very cool place. I think the tickets are not expensive and welcome to this place.
